

C-130 PHASE STYLE MAINTENANCE PLATFORM

The C-130 Maintenance Platform was designed with direct input from C-130 service technicians. Featuring high-strength lightweight aluminum construction, the C-130 platform conforms to, meets and exceeds OSHA requirements. The platform offers full fall protection and enhanced worker safety without obstructing the maintenance process. As with all FLS Phase Style Platforms, C-130 platforms are easily mobile when necessary and securely lock in place during maintenance procedures of the aircraft.

C-130 PHASE STYLE MAINTENANCE PLATFORM

FEATURES

- Quick Assembly** modular, easy assemble/disassemble platform decks feature bracing systems that allow for 1/3 less setup time
- Versatility** the maintenance bay can be utilized as a wrap around bay or split between tail, nose and side sections of the aircraft
- Rugged Construction** each stand is constructed from light weight, high-strength aluminum and self-draining, anti-slip, anti-bounce safety tread
- Mobility** engineered for easy transport and mobility
- Auto-Lock Sliders** Auto-Lock Sliders allow easy aircraft profile adjustments. Equipped with rubber bumpers to protect skin of aircraft, this adjustable contour fit make is easy to service aircraft with little to no movement of platform.

Decks and staircases feature true anti-slip, anti-bounce safety tread that allows for drainage of spilled fluids.

Aircraft props can be rotated during maintenance procedures without moving the stand.

Decks feature sure grip tread plate and a 4500 pound uniform load rating.

Wing-tip 2-tier system

Load tested, high strength, lightweight aluminum construction

Staircase can be positioned anywhere around the perimeter of the aircraft.

Sliding, fold down handrails allow for safe placement and removal of equipment without leaving the stand

4-inch kick panels protects against tools dropping

Height adjustable wheel jacks provide easy leveling

Heavy-duty industrial swivel casters foot lock for safety and stability.

Hard mounted electrical and air line connections conveniently located on all main and tail deck sections. Electrical system incorporates emergency shut-off switch, GFI (Ground Fault Interrupter) and incorporates all UL approved components.

The **C-130 Phase Maintenance Platform** provides a maintenance bay to facilitate complete fall protection to technicians servicing all areas of the aircraft. C-130 Phase Maintenance Platforms are designed for easy maneuverability and can be separated from the other components for hanger/facility replacement storage.

WARRANTY INFORMATION

FLS provides a three (3) year warranty on the total platform, as well as part listings for identification and ordering of replacement parts.

OSHA COMPLIANT

FLS Maintenance Stands are constructed from light weight, high-strength structural grade 6061 aluminum and self-draining, anti-slip and anti-bounce 5052 aluminum Safety Treads OSHA compliant, omnidirectional and self-correcting. All welded designs are in accordance with AWS D1.1 & D1.2. Each design features load ratings. FLS Stands provide complete OSHA compliance for fall protection during maintenance procedures.

WHY FLS?

Maximizing fall-safety requires proper setup and training. FLS provides full technical support and training upon delivery. One manager with total accountability handles your project. Competitors can't compare with FLS' turnkey costs and services.
