

ManSafe[®] SRL Web

Smarter. Safer. Stronger.
Better

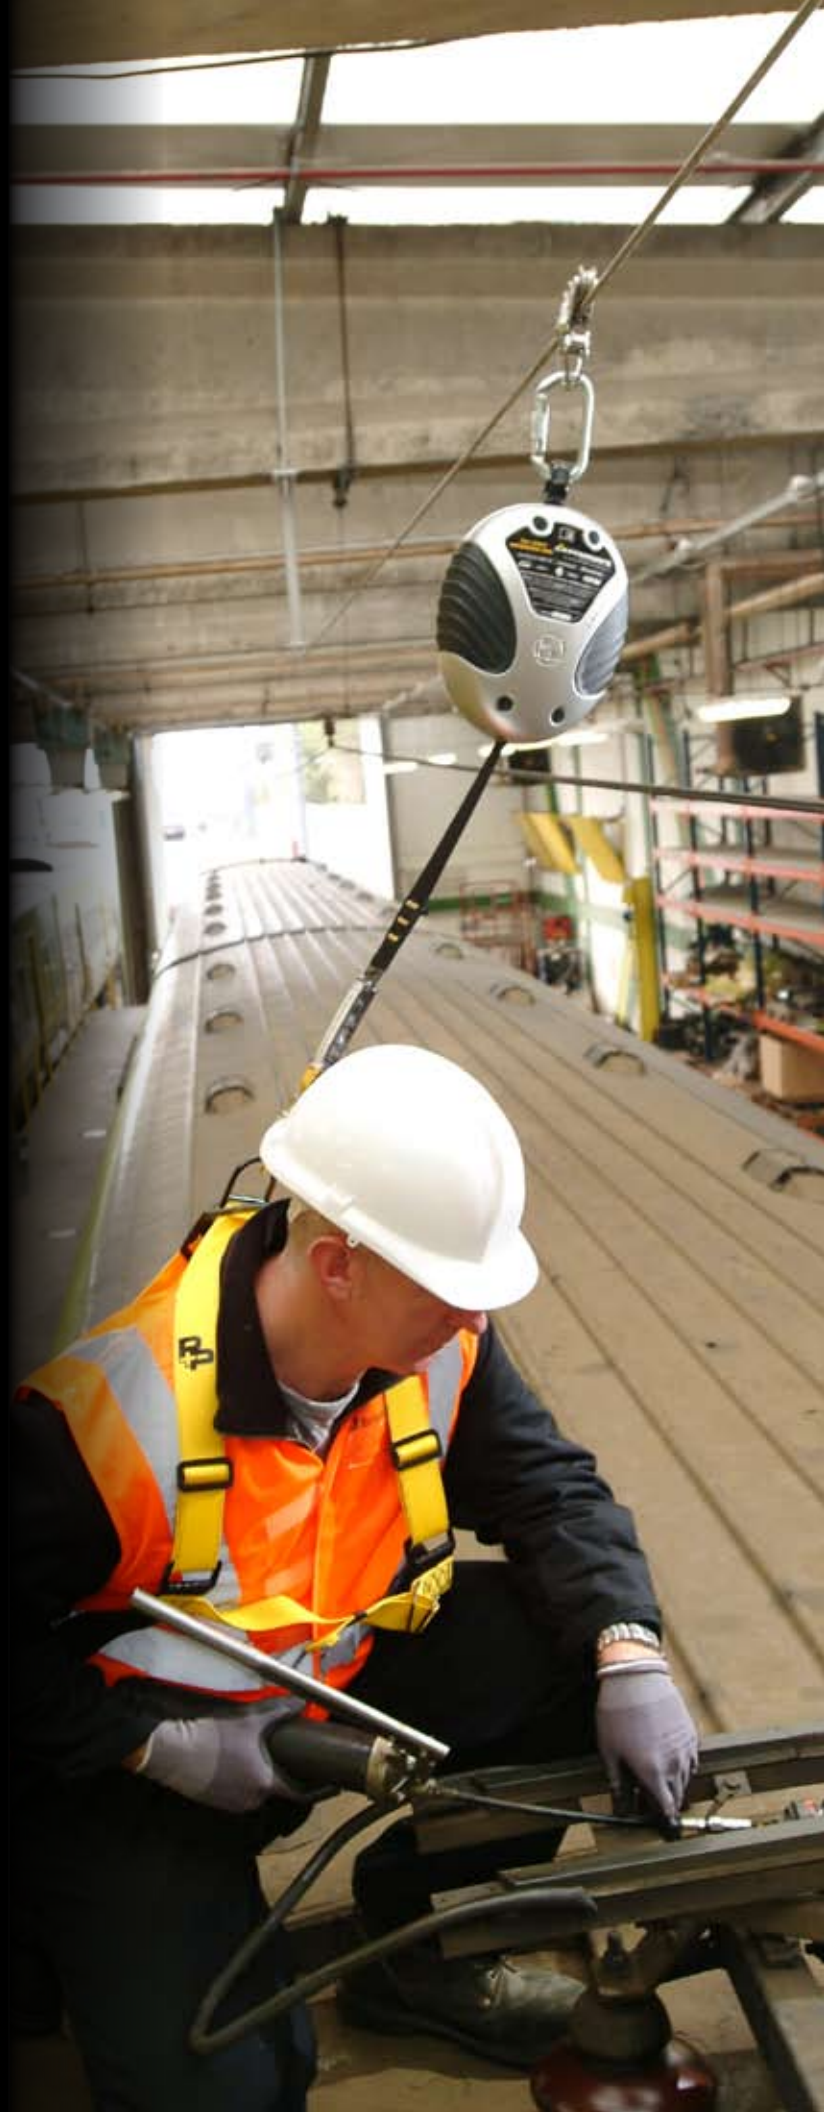

The ManSafe **Self Retractable Lifelines** (SRLs) are intended for use where mobility is needed and fall protection is required.

The innovative design and modular construction of a **ManSafe SRL** allows for quick and easy on-site inspection — as well as full recertification — resulting in the most cost-efficient SRL, giving the best ‘return on investment’ for the operator.

FLEXIBLE LIFELINE SYSTEMS[®]

The standard of excellence in the Fall Safety Industry is Flexible Lifeline Systems (FLS).

That’s why Latchways has teamed with FLS to distribute ManSafe SRLs in North America.

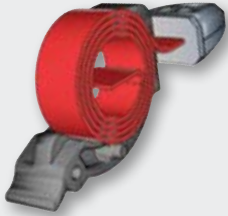

FLSWORKS[®]

ManSafe® SRL Web

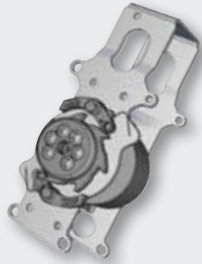

The ManSafe Web SRL has been developed with a number of unique features to provide a smarter, safer and stronger alternative to traditional SRLs.

Smarter

- **Patented Constant Force® Braking System** is a frictionless braking system that won't go out of adjustment.
- Individual components removed and replaced in minutes due to modular design.
- Components that need only visual inspection not mechanical testing.

Safer

- **Advanced Full Contact™ Technology** is a 100% reliable locking mechanism that cannot freeze, hang up or corrode.
- No wet lubrication to attract dirt and debris.
- Stainless steel components unaffected by water, contaminants, temperature and time.

Stronger

- **Rugged impact resistant case** is manufactured from unique toughened nylon and protects the unique modular chassis design
- Modular chassis design and case are not integrated allowing the case to serve strictly as the protective armor.

Better

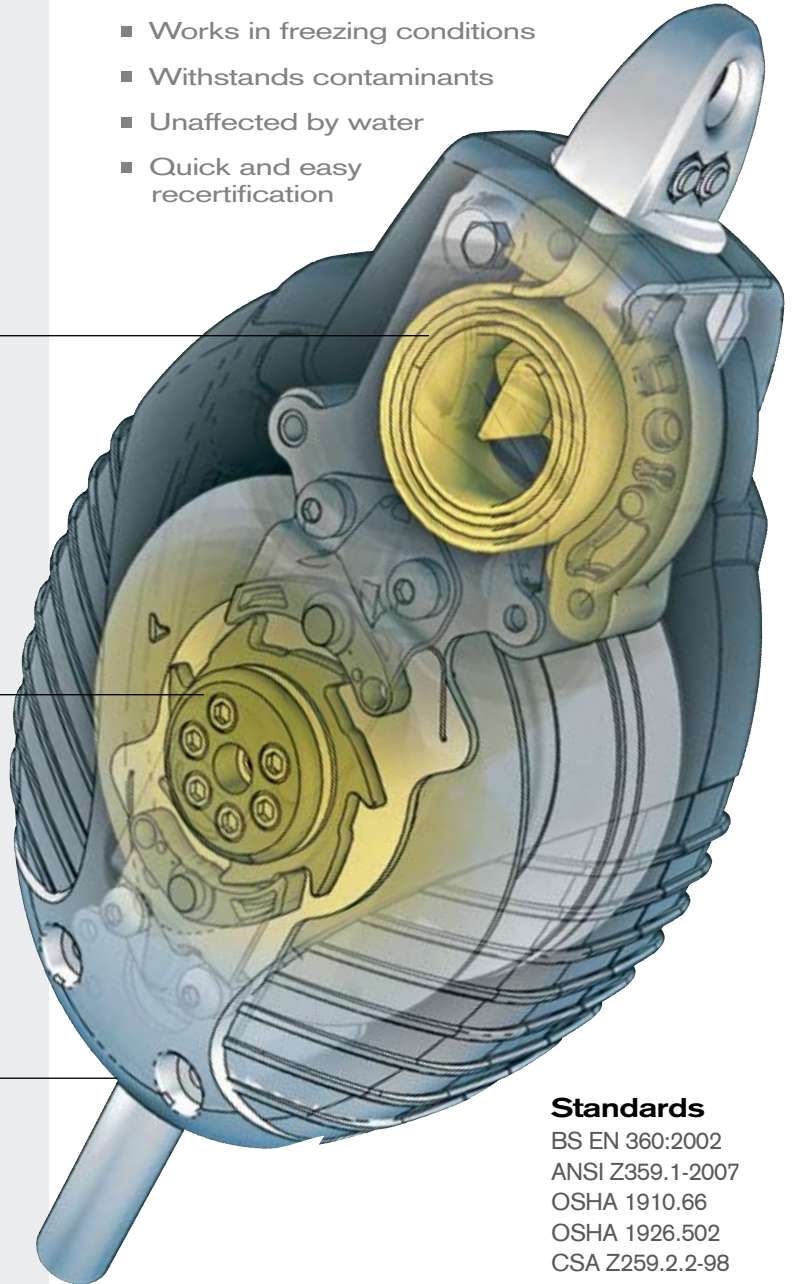

Maximizing fall-safety requires proper product selection and support.

Flexible Lifeline Systems (FLS) provides full technical support on the full line of Latchways ManSafe SRLs. A superior product with superior support.

ManSafe® and Constant Force® are registered trademarks and Full Contact™ is a trademark of Latchways plc.

- High strength polyester webbing lifeline, featuring a Vectran™ core
- Works in freezing conditions
- Withstands contaminants
- Unaffected by water
- Quick and easy recertification
